

YOUR HOW-TO GUIDE

THE BIG PLASTIC COUNT

DATES FOR THE DIARY:

The Big Plastic Count: **11-17 MARCH 2024**

Submission deadline: **31 MARCH 2024**

Results published: **APRIL 2024**

HOW TO PREPARE

Get ready in three simple steps

1. **Print out the Let's Count Tally Sheet below** and stick it somewhere you'll see it: on the fridge, near the bin or beside the recycling.
2. **Check the types of plastic we're recording** by visiting thebigplasticcount.com/help.
3. **Tell the people you live with that you're taking part.** We want to count household plastic waste, so that means everyone at home needs to tally their plastic before throwing it away.

HOW TO TAKE PART

1. Between **11-17 MARCH 2024**, tally the plastic you use on the Let's Count Tally Sheet. This includes plastic that goes in the bin and in the recycling.
2. When you're out and about during the week, record any plastic you use, like packaging from take-away lunches or service station snacks, then tally it up when you get back home.
3. At the end of the week, submit your results by **31 MARCH 2024** at: thebigplasticcount.com/submit.

HOW TO SUBMIT YOUR RESULTS

Once the week is over, simply submit your results by **31 MARCH 2024** on our website:

thebigplasticcount.com/submit
or scan the QR code

WHAT NOT TO COUNT

Plasters, medication packaging, period products, nappies, poo bags, plastic cutlery, drinks cartons.

We aren't counting plastic items that are used for medical or sanitary reasons as these are vital for the people who need them. We're also not counting Tetra Pak items – the plasticised cardboard that many drinks cartons are made of – because it's hard to trace. That includes sandwich packaging, coffee cups, Pringles and similar products.

If you're still unsure what to count, check out our Plastic ID tool:

thebigplasticcount.com/help
or scan the QR code

When taking part, you might feel like the plastics crisis is your fault. It's not. Only governments, brands and supermarkets have the means to provide accessible alternatives. Your evidence will persuade them to do that.

Once you've submitted your results, we'll calculate your household's plastic footprint and use the evidence to push for lasting change. Thank you again for taking part.
