

SGEG - Help needed for Shamley Green's toads!

It's that time of year again, when the toads and frogs of Shamley Green will be crossing the road to get to their breeding ponds, only to perish under the wheels of a car - but you can help save them from this gruesome end!! We will soon be erecting the temporary Toad Fence which stops them getting on to busy Woodhill Lane in the first place. Can you spare an hour or two to help with this? It's not difficult work, but there's a lot of fence to do so we need you! For details please email Regena on toads@surrey-arg.org.uk to join one of our friendly working parties from 19th January.

We will also be looking for people to help on the Toad Patrol from early February onwards, when we rescue amphibians in great numbers on mild damp evenings. In 2025 we saved nearly 3000 toads, frogs and newts from the risk of death!
