

SGEG – Volunteers needed for scrub clearing in Lords Hill Woods Sat 11th October

We're planning a working party in the woods at Lords Hill on Saturday 11th October to clear the holly, brambles and other undergrowth by the footpath. This will make the area more accessible and will help with biodiversity too by allowing more light to reach the ground. We will be joined by members of the Womersley Environmental Advisory Group who have done a great job in their woods at Barnett Hill, and we'll be learning new skills from them like dead hedging and coppicing. This is subject to Womersley agreeing – they own the woodland. We have been in touch with them and are optimistic that they will.

Can you lend a hand? We're planning to meet at the Lords Hill Playground at 10am and break for lunch about 12, then carry on for a bit longer in the afternoon depending on how much there is left to do. Bring a sandwich, dress sensibly, bring loppers, pruning saws, anything you think might be useful, and it should be a fun and rewarding day!!
